

TO JOIN A GUIDED RIDE YOU MUST REGISTER FOR THE RALLY AND SIGN UP FOR EACH INDIVIDUAL TOUR. WRISTBANDS WILL BE CHECKED BY GUIDES. All day tours in each area will meet together at The Hub at the designated time below or meet at the trailhead at 9:30 AM. After a trail etiquette and safety meeting, tours will then leave in different directions or stagger departure times.

Thursday 4/13/23 Evening Missile History & Geyser tour

"The Hub" Meeting Time	Hub Location	Trailhead Meeting Time	Trailhead Location
6:00 PM	(39.000888, -110.163145)	6:15 PM	(38.973937, -110.121852)
Length	Trail Name	Skill Level	Guide
20 Miles	Missile complex	Beginner	TBA
<p>Green River was the site of ballistic missile testing for several decades during the cold war. Many Athena and Pershing II missiles were launched from Green River to White Sands New Mexico. This history tour will explore both launch sites as well as the nearby cold water geyser. Most of the tour will take place on dirt roads but there a couple of optional trail sections that are beginner level. Maps for the area are included with registration and riders are welcome to tour the sites on their own if they choose.</p>			

Friday 4/14/23 Day Ride - Whitewash

"The Hub" Meeting Time	Hub Location	Trailhead Meeting Time	Trailhead Location
8:10 AM	(39.000888, -110.163145)	9:30 AM	(38.80412, -110.04746)
Approximate Length	Trail Name	Skill Level	Guide
35 Miles	Ten Mile Wash	Intermediate	TBA
<p>Ten mile wash is a sandy trail that is fun for riders who like easy riding. There are few technical sections but riders should expect some whoops.</p>			

30 Miles	Brain's & Mary's Trails	Advanced	TBA
<p>Half of Brian's trail contains deep sand and the other half is entirely slickrock. The climb between the two is quite formidable and is the reason we give this an advanced rating. Brian's Trail connects to Mary's trail so riders will get to experience that trail as well as a couple others. Mary's trail has several extremely steep slickrock climbs/decents that require riders to hit them with commitment.</p>			

Friday 4/14/23 Day Ride - Justensen's Flat			
"The Hub" Meeting Time	Hub Location	Trailhead Meeting Time	Trailhead Location
8:20 AM	(39.000888,-110.163145)	9:30 AM	(38.845370,-110.894279)
Approximate Length	Trail Name	Skill Level	Guide
30 Miles	Copper Globe	Beginner/Lower Intermediate	TBA
<p>Copper Globe is a fun ride with a neat history. Beginners will enjoy the mostly dirt roads and light sand out to the copper mine. The trail continues to Links Flat and the Red Canyon overlooks. There are a couple optional sections that contain intermediate obstacles for those that want to give them a try.</p>			
30-50 Miles	Eva Conover	Lower Intermediate	TBA
<p>The Eva Conover trail contains many scenic views and is a great trail for those riders who are transitioning from the beginner to intermediate skill level. We consider this trail Devil's Racetrack's little brother as it contains much of the same scenery and riding surfaces but Eva Conover has more mellow obstacles. Depending on group preference, this tour may ride through the sand in Coal wash and connect with either Devils Race Track or Fix-it pass.</p>			
30-50 Miles	Devil's Race track	Upper Intermediate	TBA

Devil's Racetrack is rated as an intermediate of the trail with the exception of The Devil's Backbone and The Staircase located in the heart of the trail. Both of these are advanced obstacles that cannot be bypassed. Because they are relatively short, intermediate riders can usually be helped up without much trouble. One advantage of this trail is that it is wide and varied enough that intermediate, advanced, and expert riders can all take different lines and have an amazing experience. Depending on group preference, this tour may ride through the sand in Coal wash and connect with either Eva Conover or Fix-it pass.

40-50 Miles	Sinbad / Fixit pass	Intermediate	TBA
This trail is very similar to the Eva Conover trail. Deep canyons, dry washers, and miles of fun riding. There are a handful of obstacles that we rate in the middle of the intermediate skill level. Depending on group preference, this tour may ride through the sand in Coal wash and connect with either Devils Race Track or Eva Conover.			

Friday 4/14/23 Day Ride - Color Trails

"The Hub" Meeting Time	Hub Location	Trailhead Meeting Time	Trailhead Location
8:30 AM	39.000888 , -110.163145	9:30 AM	38.789009 , -110.709799
Approximate Length	Trail Name	Skill Level	Guide
45 Miles	Waterfall Trail	Lower Advanced	TBA
This is a great single track trail that is at the southern end of the Swell. With lots of ups and downs, it winds in and around several different washes. Much of the trail is fast and flowy with about a dozen obstacles scattered throughout. Depending on rider preference, this trail may include some of the Color Trails as well.			
35 Miles	Color Trails	Upper Advanced	TBA
This ride will include the Orange Trail and the Red Trail which are both rated as upper advanced. Each contains many difficult obstacles. We recommend avoiding the Red and Orange trails unless you are comfortable with wheeling up tall ledges. For those intermediate riders who want to try a couple advanced obstacles, we recommend either Woodside or the Waterfall Trail.			
25 Miles	5 Miles of Hell	Expert	TBA

The name says it all but we had better explain. This is perhaps the most difficult single track trail in the state. Unless you have a deeply rooted desire to ride 5MOH, we suggest you stay away. This is not the trail for learning new skills. Wheelie ability is a must and we highly recommend an electric start and tons of water!

Friday 4/14/23 Day Ride - Woodside

"The Hub" Meeting Time	Hub Location	Trailhead Meeting Time	Trailhead Location
8:40 AM	(39.000888, -110.163145)	9:30 AM	(39.212042, -110.367822)
Approximate Length	Trail Name	Skill Level	Guide
40 Miles	Woodside Single Track	Intermediate	TBA
Woodside is a huge area with every type of riding. On this tour, expect some hill climbs, staircases, and ledges that are small enough to roll up. Oh yeah, you will also run into some whoops.			
40 Miles	Woodside Single Track	Advanced	TBA
Woodside is a huge area with every type of riding. On this tour, expect some hill climbs containing ledges, long staircases, and ledges that are best hit with a wheelie. Oh yeah, you will also run into some whoops.			

Friday 4/14/23 Day Ride - Black Dragon Wash

"The Hub" Meeting Time	Hub Location	Trailhead Meeting Time	Trailhead Location
9:00 AM	(39.000888, -110.163145)	9:30 AM	(38.924823, -110.418468)
Approximate Length	Trail Name	Skill Level	Guide
30 miles	Black Dragon Wash	Beginner / Intermediate	TBA

With towering sandstone walls, an amazing rock art panel, and enormous cave, this canyon is something no rider will ever forget. This is a great trail for both beginner and intermediate riders. THERE IS NO REGULAR FREEWAY EXIT TO THIS TRAILHEAD. WHEN TRAVELING WESTBOUND ON I-70, PULL DIRECTLY OFF THE FREEWAY ONTO A DIRT ROAD IMMEDIATELY AFTER MILEPOST #147. CLOSE THE GATE BEHIND YOU TO KEEP THE COWS IN.

Friday 4/14/23 Evening Missile History & Geyser tour

"The Hub" Meeting Time	Hub Location	Trailhead Meeting Time	Trailhead Location
6:00 PM	39.000888 , -110.163145	6:15 PM	38.973937 , -110.121852
